## WIFI IP Camera

O-KAM Pro

Quick installation for iOS and Android

English: German: French: Italian: Español: 日本語

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

Vulnerability Reporting: <http://www.szsincam.com/Reporting/>

English:

## Device connection

### 1.Download the APP

Use your phone to scan the QR code below to download the application, while users can use the APP Store/Google Play to search for O-KAM Pro to download.

O-KAM PRO

# SIGNUP/LOGIN

(1) Please register an APP account and log in.

Step 1: New User need to sign up an account and select your country.

Step 2: Click "Sign up" then Enter your email, user name and password, Complete the verification and Sign in your account.

(2) If you already have a O-KAM PRO account, Login directly.

Screen 1: Login/Registration screen. It features a header with a back arrow, a greeting "Hello, welcome to use O-KAM", and a "Please login" prompt. Below this are input fields for "Email address" and "Password", each with a visibility toggle icon. There is a checkbox for "Remember password" and a link for "Forgot the password?". A "Email verification code login" link is present. A large teal "Login" button is at the bottom, with a "Register now" link below it. The bottom of the screen shows a preview of a living room interior.

Screen 2: Verification code login screen. It features a header with a back arrow and the title "Verification code login". The main text says "Please enter your email address". Below this is a placeholder "Please enter your email address" and a teal "Login/Registration" button.

Screen 3: Verification code error screen. It features a header with a back arrow and the title "Please enter the verification code". Below this is a placeholder for the code. A message states: "The verification code has been sent to your email address: 1234567890@gmail.com. Please check!". At the bottom, there is a red error message "Incorrect Code" and a link "No verification code received?".

# Homepage Connection Operation Video

On the APP home page, you can learn by watching the WIFI camera connection operation video.

## ADD DEVICE

Step 1: Power on the camera until you hear a APP connection prompt  
(No reset is heard again)

Step 2: Click "+" on App right corner under Home page.

There will have multiple connection way for you to adding the device.

## Scan code binding

Follow below tips to connect the WiFi

1. Use the phone camera to scan the QR code on the camera body
2. When configuring WiFi, please note whether the camera supports 5GWiFi; if it does, the camera can connect to 2.4G/5GWiFi at the same time; if it does not support 5GWiFi, the camera can only connect to 2.4GWiFi.
3. The QR code is scanned successfully, the APP will automatically jump to the next interface.
4. Waiting 1-2 Minutes Connect to the WiFi

## Scan code binding

1. The QR code displayed by the APP is aligned with the camera lens, keep it 15-30 centimeters and wait for the camera to scan it.
2. After the camera scans the QR code successfully and finishes configuring the network, it automatically jumps the binding interface.

## Add Completed

1. At the Installation Environment Test screen, select "Skip".
2. Add Camera Complete.

# Homepage Verbindung Betrieb Video

Auf der APP-Startseite können Sie lernen, indem Sie sich das Video zum Anschluss der WIFI-Kamera ansehen.

# GERÄT HINZUFÜGEN

Schritt 1: Schalten Sie die Kamera ein, bis Sie eine APP-Verbindungsanforderung hören (Es ist kein Reset mehr zu hören)

Schritt 2: Klicken Sie auf "+" in der rechten Ecke der App unter "Startseite". Es gibt mehrere Anschlussmöglichkeiten für Sie, um das Gerät hinzuzufügen.

# Scan-Code-Bindung

Befolgen Sie die folgenden Tipps, um das WiFi zu verbinden

1. Scannen Sie mit der Handkamera den QR-Code auf dem Kameragehäuse
2. Wenn Sie WiFi konfigurieren, beachten Sie bitte, ob die Kamera 5GWiFi unterstützt; wenn ja, kann die Kamera gleichzeitig eine Verbindung mit 2.4G/5GWiFi herstellen; wenn sie 5GWiFi nicht unterstützt, kann die Kamera nur eine Verbindung mit 2.4GWiFi herstellen.
3. Der QR-Code wird erfolgreich gescannt, die APP springt automatisch zur nächsten Schnittstelle.
4. Warten 1-2 Minuten Verbinden mit dem WiFi

## Scan-Code-Bindung

1. Der von der APP angezeigte QR-Code ist auf das Kameraobjektiv ausgerichtet. Halten Sie ihn in einem Abstand von 15-30 Zentimetern und warten Sie, bis die Kamera ihn gescannt hat.
2. Nachdem die Kamera den QR-Code erfolgreich gescannt und die die Konfiguration des Netzwerks abgeschlossen hat, springt sie automatisch auf die verbindliche Schnittstelle.

## Erledigt hinzufügen

1. Wählen Sie auf dem Bildschirm "Test der Installationsumgebung" die Option "Überspringen".
2. Kamera hinzufügen Vollständig.

## Accueil Connexion Vidéo

Sur la page d'accueil de l'APP, vous pouvez apprendre en regardant la vidéo de l'opération de connexion de la caméra WIFI.

# AJOUTER UN DISPOSITIF

1 : Mettez l'appareil photo sous tension jusqu'à ce que vous entendiez une invite de connexion APP (Aucune réinitialisation n'est entendue à nouveau)

2 : Cliquez sur "+" dans le coin droit de l'application, sous la page d'accueil. Il y aura plusieurs moyens de connexion pour ajouter l'appareil.

# Scanner le code de liaison

Suivez les conseils ci-dessous pour connecter le WiFi

1. Utilisez l'appareil photo du téléphone pour scanner le code QR sur le boîtier de l'appareil photo.
2. Lors de la configuration du WiFi, veuillez noter si la caméra prend en charge le 5GWiFi ; si c'est le cas, la caméra peut se connecter à 2.4G/5GWiFi en même temps ; si elle ne prend pas en charge le 5GWiFi, la caméra ne peut se connecter qu'au 2.4GWiFi.
3. Si le code QR est scanné avec succès, l'APP passe automatiquement à l'interface suivante.
4. Attendre 1 à 2 minutes pour se

## Scanner le code de liaison

1. Le code QR affiché par l'APP est aligné avec l'objectif de l'appareil photo. l'objectif de l'appareil photo, maintenez-le à une distance de 15 à 30 centimètres et attendez que l'appareil photo le scanne.
2. Une fois que l'appareil photo a scanné le code QR avec succès et qu'il a fini de configurer le réseau, il saute automatiquement à l'interface de liaison. configuration du réseau, il saute automatiquement l'interface de liaison.

## Add Completed

1. Dans l'écran Test de l'environnement d'installation, sélectionnez "Sauter".
2. Ajouter une caméra Compléter

Italian:

## Connessione del dispositivo

### 1. Scaricare l'APP

Utilizzare il telefono per scansionare il codice QR qui sotto per scaricare l'applicazione, mentre gli utenti possono utilizzare l'APP Store/Google Play per cercare O-KAM Pro per scaricarla.

O-KAM PRO

# ISCRIZIONE/LOGIN

## (1) Registrare un account APP e accedere.

Fase 1: I nuovi utenti devono registrare un account e selezionare il proprio paese.

Fase 2: Fare clic su "Iscriviti", quindi inserire l'e-mail, il nome utente e la password, Completare la verifica e accedere al proprio account.

## (2) Se si dispone già di un account O-KAM PRO, accedere direttamente.

Screen capture of the O-KAM login interface. The header says "Hello, welcome to use O-KAM" and "Please login". There are input fields for "Account" and "Password". Below the password field is a checkbox for "Remember me" and a link "Forgot the password?". A teal "Login" button is at the bottom. A small image of a living room is at the very bottom.

Screen capture of the O-KAM verification code login interface. The header says "Verification code login". The text "Please enter your email address" is displayed twice. A teal button labeled "Login/Registration" is at the bottom.

Screen capture of the O-KAM verification code error interface. The header says "Please enter the verification code". Below it, a message states: "The verification code has been sent to your email address: 66786232@gmail.com Please check!". At the bottom, a red error message says "No verification code created!".

## Homepage Collegamento Operazione video

Nella pagina iniziale dell'APP, è possibile imparare guardando il video del funzionamento della connessione della telecamera ra WIFI.

# AGGIUNGI DISPOSITIVO

Fase 1: Accendere la fotocamera finché non si sente la richiesta di connessione APP. (non si sente più alcun reset)

Fase 2: Fare clic su "+" nell'angolo destro dell'app sotto la pagina iniziale. Ci saranno diverse modalità di connessione per aggiungere il dispositivo.

# Rilegatura del codice di scansione

Seguire i seguenti suggerimenti per collegare il WiFi

1. Utilizzare la fotocamera del telefono per scansionare il codice QR sul corpo della fotocamera.
2. Quando si configura il WiFi, tenere presente se la telecamera supporta il 5GWiFi; se lo supporta, la telecamera può connettersi contemporaneamente al 2.4G/5GWiFi; se non supporta il 5GWiFi, la telecamera può connettersi solo al 2.4GWiFi.
3. Se il codice QR viene scansionato con successo, l'APP passa automaticamente all'interfaccia successiva.
4. Attendere 1-2 minuti per connettersi al WiFi

# Rilegatura del codice di scansione

1. Il codice QR visualizzato dall'APP è allineato con l'obiettivo della fotocamera. obiettivo, tenerlo a 15-30 centimetri e attendere che la fotocamera lo scansioni.
2. Dopo che la telecamera ha scansionato il codice QR e ha terminato la configurazione della rete, salta automaticamente all'interfaccia di collegamento. configurare la rete, salta automaticamente all'interfaccia di collegamento.

## Aggiungi completo

1. Nella schermata Test ambiente di installazione, selezionare "Salta".
2. Aggiungi telecamera Completa.

Mobile app login screen for O-KAM. The header says "Hello, welcome to use O-KAM" and "Please login". There are input fields for "Account" and "Password", both with eye icons. Below the password field is a checkbox for "Remember password" and a link "Forgot the password?". A link "Email verification code login" is also present. A large teal "Login" button is at the bottom. At the very bottom, there is a "Register now" link and a small image of a modern living room with a sofa and a potted plant.

Mobile app screen for "Verification code login". It has a back arrow and the title "Verification code login". The text "Please enter your email address" is displayed twice. Below the input field is a teal button labeled "Login/Registration".

Mobile app screen showing "Please enter the verification code". It features four input fields for the code. Below them, a message states: "The verification code has been sent to your email address: 1234567890@gmail.com. Please check!". At the bottom, there is a red "OK" button and a link "No verification code received?".

# ESZKÖZ HOZZÁADÁSA

# Szkennelési kód kötés

1. Az APP által megjelenített QR-kódot igazítsa a kamera lencséjéhez, tartsa 15-30 centiméterre, és várja meg, amíg a kamera beolvassa.
2. Miután a kamera sikeresen beolvasta a QR-kódot és befejezte a műveletet, A hálózat konfigurálásakor automatikusan átugorja a kötés felületet.

## Tilføj enhed

Trin 1: Tænd kameraet, indtil du hører en APP-forbindelsesprompt (Ingen nulstilling høres igen)

Der vil være flere forbindelsesmuligheder for dig til at tilføje enheden.

# Skanningskodebinding

1. QR-koden, der vises af appen, skal holdes op foran kameralinsen i en afstand af 15-30 centimeter. Vent på, at kameraet scanner koden.
2. Når kameraet har scannet QR-koden og er færdig.  
Når du konfigurerer netværket, hopper den automatisk til bindingsgrænsefladen.
